Mike Travis has been connected to the construction industry for more than seventeen years. As an Architect, he worked on over a billion dollars worth of construction projects. As a Developer/Owner's Representative, Mike oversaw hundreds of millions of dollars worth of work put in place for private equity teams, facilitating both the design and entitlement processes. Now, as a General Contractor, he has a wealth of knowledge, matched by few. This allows him to act as a bridge between Developer, Design Team and Construction Team. This coordination role has been very valuable during pre-construction and throughout the construction process.
